

RUMI COOL

DIETETIC MINERAL FEED FOR RUMINANTS

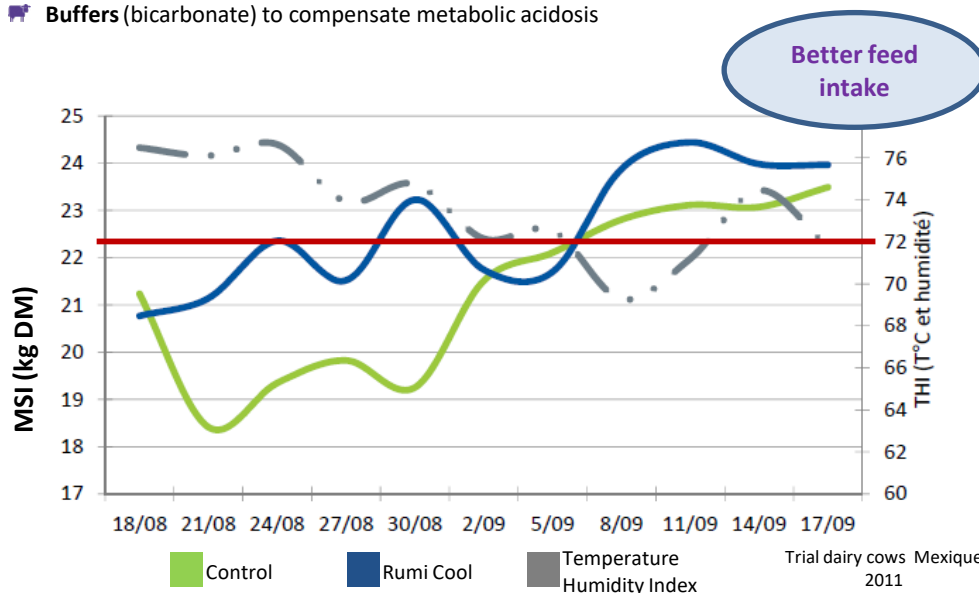

Objectives : decrease acidosis risk in case of stress and heats.

To improve performances during periods of heat stress:

- Allows to act at the **production**: appetite stimulation, milk production, growth
- Allows a better **conversion of feed** : optimization of digestibility, pancreatic and intestinal secretions
- Contribute to the **well-being** of the animal in production and helps to better regulate its metabolism in case of heat stress.

MODE OF ACTION

- **Plants extracts** (polyphenols, appetite stimulants, stimulators of salivary secretions)
- **Electrolytes** (potassium, sodium) to compensate exudative losses
- **Buffers** (bicarbonate) to compensate metabolic acidosis

DIRECTION FOR USE

To be dispensed as soon as the Thermal Humidity index (THI) is exceeded. To be mixed with the ration

- **Dairy cows**: 200 g/animal/d.
- **Beef cattle**: 30g/d/100 kg BW
- **Heifers**: 100 g/d
- **Ewes, goats**: 30 g/animal/d.
- **Lambs**: 20 g/animal/d.

SHELF LIFE

12 months in original packing.

PACKING

Bag of 25 kg.

PRESENTATION

Semolina or Pellets

Characteristics

Ingredients

Sodium bicarbonate, calcium carbonate, sodium chloride, sodium sulfate

Analytical contents

Calcium	4.5%
Magnesium	0.1%
Sodium	23.2%

Additives

Flavouring and appetite stimulants

Indicative values, please refer to the label.

Made in France by Le Goessant
